EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1 and 4, the prior art of record does not disclose or suggest at least incorporating paging messages into a speech recognition system for receiving a call at a called party mobile phone having a speech recognition and character display mode.

Regarding independent claim 13, the prior art of record does not disclose or suggest a speech recognition system for converting a voice signal from a calling party when a called party is in a voice recognition mode through a base station to a mobile terminal. *Levay et al.* teaches a speech and text messaging system where a speech recognition system 10 of a System A converts an audio message 12 from a System A into a text file, when System A ("a calling party") calls a System B ("a called party"). However, *Levay et al.* omits a mobile terminal or a base station with a voice signal received from a calling party through a base station and displayed on a mobile terminal having a voice recognition mode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
